

PART 3 - USER ACCEPTANCE AND TRAINING

User Acceptance Testing

The User Acceptance Testing (UAT) was conducted to verify that the EduGuide PH system meets its functional requirements and operates as expected from the end-user's perspective. Since the system is designed exclusively for student use, the testing focused on student-centric features such as authentication, AI-powered academic support, career guidance, and multilingual capabilities.

Preliminary Testing Results

Table 3.1 Test Cases for EduGuide PH System

Functional Requirement	Test Cases
1. User Authentication	a. Register a new student account
	b. Login using registered credentials
	c. Logout User
	d. Maintain User Session
2. AI Chatbot for Academic Questions	a. Ask a question in English
	b. Ask a question in Tagalog
	c. Ask a question in Cebuano
	d. Ask a question and receive a relevant, accurate answer
3. Career Path Suggestions	a. Input interests, grade level, and strengths
	b. Receive a list of suggested careers with descriptions
4. Suggested Prompts	a. View a list of predefined common academic topics

	b. Click a prompt and receive an AI-generated response
5. Voice Input	a. Use voice input to ask a question
	b. Verify that audio is converted to text correctly
6. File Attachment	a. Attach an image file ($\leq 5\text{MB}$) with a query
	b. Attach a document file ($\leq 5\text{MB}$) with a query
	c. Receive an AI-assisted response based on the attachment
7. Account Management	a. View student profile
	b. Update student profile information
	c. View personal query history

Each of the test cases was examined, and the results were noted. Table 3.2 shows the actual results of the UAT.

Table 3.2 User Acceptance Testing Results

Test Case #	Tested By	Tested Date	Expected Outcome	Actual Outcome	Remarks
1a	John Mark Valencia	June 3, 2026	Be able to register a new account.	User successfully registered a new account with valid details.	Passed
1b	Sophia Mendoza	June 3, 2026	Be able to log in using registered credentials.	User successfully authenticated and	Passed

				was redirected to the main dashboard.	
1c	Christian Jay Duterte	June 3, 2026	Be able to log out of the application.	User successfully logged out and was returned to the login screen.	Passed
1d	John Mark Valencia	June 3, 2026	Maintain active user session until logout.	User session remained active for the duration of the testing period until manual logout.	Passed
2a	Sophia Mendoza	June 3, 2026	Ask a question in English and receive an accurate AI-generated explanation.	The AI generated a relevant and accurate explanation in English.	Passed
2b	Christian Jay Duterte	June 3, 2026	Ask a question in Tagalog and receive an accurate AI-generated explanation.	The AI generated a relevant and accurate explanation in Tagalog.	Passed
2c	John Mark Valencia	June 3, 2026	Ask a question in Cebuano and	The AI generated a relevant and	Passed

			receive an accurate AI-generated explanation.	accurate explanation in Cebuano.	
2d	Sophia Mendoza	June 3, 2026	Ask a question and receive a response.	System processed the question and provided a coherent, non-empty response.	Passed
3a	Christian Jay Duterte	June 4, 2026	Input interests, grade level, and strengths.	The system successfully accepted the input parameters.	Passed
3b	John Mark Valencia	June 4, 2026	Receive a list of suggested careers with descriptions.	The system generated a list of relevant careers with accurate descriptions.	Passed
4a	Sophia Mendoza	June 4, 2026	View a list of predefined common academic topics.	Predefined prompts were displayed correctly on the interface.	Passed

4b	Christian Jay Duterte	June 4, 2026	Click a prompt and receive an AI-generated response.	The system processed the prompt and generated a relevant explanation.	Passed
5a	John Mark Valencia	June 4, 2026	Use voice input to ask a question.	The system successfully activated the microphone and recorded audio.	Passed
5b	Sophia Mendoza	June 4, 2026	Verify that audio is converted to text correctly.	The audio was transcribed to text with acceptable accuracy.	Passed
6a	Christian Jay Duterte	June 5, 2026	Attach an image file (≤5MB) with a query.	The system accepted the image file.	Passed
6b	John Mark Valencia	June 5, 2026	Attach a document file (≤5MB) with a query.	The system accepted the document file.	Passed
6c	Sophia Mendoza	June 5, 2026	Receive an AI-assisted response	The AI processed the attachment and	Passed

			based on the attachment.	generated a context-aware response.	
7a	Christian Jay Duterte	June 5, 2026	View student profile.	The student's profile information was displayed correctly.	Passed
7b	John Mark Valencia	June 5, 2026	Update student profile information.	The student successfully updated their profile, and changes were saved.	Passed
7c	Sophia Mendoza	June 5, 2026	View personal query history.	The student's previous queries were displayed correctly.	Passed

Training Results

The training was conducted for the student users after the UAT to ensure they were comfortable with the system's functionalities. The results are shown in Table 3.3.

Table 3.3 Training Results

Date	Module	User	Results
------	--------	------	---------

June 3, 2026	User Authentication & Account Management	Student A, B, C	The training on account registration, login, and session management was administered successfully.
June 3, 2026	AI Chatbot & Multilingual Support	Student A, B, C	The training on asking academic questions in English, Tagalog, and Cebuano and interpreting AI responses was administered successfully.
June 4, 2026	Career Guidance & Suggested Prompts	Student A, B, C	The training on using the career suggestion engine and using suggested prompts was administered successfully.
June 5, 2026	Voice Input & File Attachments	Student A, B, C	The training on using voice input and attaching files for AI-assisted analysis was administered successfully.
